RE: Reference Letter for Emily Kastner

To Whom it May Concern:

I have worked with Mrs. Kastner for the past 6 years. She is an extremely talented musician and teacher. She works well with students and seems to get the most out of them. She is versatile and seems able to work with all types of students. She seemed to connect with students from a wide range of ages and interest.

Mrs. Kastner does have a significant commute to work, but in my observation that it has not affected her ability to do her job. She spent many of late nights with the marching band at games, and with the chorus and enable band for concerts. She also made herself available for the many of the band and music dept. events throughout the years.

Sincerely,  
David Hutchinson
