Experience

- Working with Children**
I have a wide variety of working experience with children and students. Throughout my time in college, I shadowed and assisted in teaching young students in public schools and private schools. I am a black belt in tae kwon do and I have instructed primarily large classes of younger students in which they have performed public demonstrations of their skills and discipline that reflect upon me and my teachings. I have also worked as a summer recreational counselor for younger children. In addition, my Military Police Officer training and experience has also provided me with communication skills to talk to and leave good impressions upon people of all ages.
- Working with Adults**
I have experience in working with parents of the students in the schools I have assisted teaching in, in addition I have experience working under stressful environments in a restaurant while being a waiter, host, bus boy, and waiter assistant. In addition, being a Military Police Officer has given me experience working with joyful and agitated adults. I have also volunteered my time to numerous community events to educate the public about the military and military tactical vehicles and protocols.
