

Dear Parents/Guardians,

We live in a world surrounded by technology. We know that whatever field our students choose to go into as adults, their ability to succeed will increasingly depend on understanding how technology works.

Only a tiny fraction of us are learning how technology works. Fewer than half of all schools teach computer science. That's why our entire school is joining in on the largest learning event in history: The Hour of Code. The Hour of Code will take place December 3-7, 2018. I encourage you to join us and participate in The Hour of Code with your child/children.

See <http://hourofcode.com/us> for details, and help spread the word.
