FRANKLIN TOWNSHIP SUMMER FUN PROGRAM 2014

AFTER CARE Program-- offered daily through both summer recreation and Summer Fun Programs, at an hourly rate of \$2.00 per hour per student. A minimum of 8 students will be required to hold aftercare programs. After care 12:30 – 4:30 p.m. This after care is offered at \$2.00 per hour (for any part thereof.) Time must be scheduled in advance.

Schedule for after care will be 30 - 45 min. lunch time/social time, followed by 30 - 45 min. free play time outside, weather permitting; activities will include group games, board games, ping pong; for remaining time activities will include, but not be limited to: arts and crafts, mask making, puppet making, painting, film and video exploration, storytelling, acting, etc. Payment for this program shall be paid separately, by week, in advance of the program.

Course Title: ROCKET MAN

Instructor:

Description: Do you like custom made rockets or air cars? How about making cement canoes, truss bridges or trebuchets? In this class students will learn to design, test and redesign for improvements, while collaborating and sharing with peers to make exciting and challenging engineering projects.

Grades: 5-8 Session I 10:30-12:30; Session II 8:30-10:30 Session 3 10:30-12:30

Course Title: Language Arts for Fun-Literacy Enrichment

Instructor:

Description: Do you love reading or just need some extra practice? Energetic reading and writing class taught by experienced LAL teacher. Students will read, write, think critically, and practice skills in an engaging and fun atmosphere. Students will use iPads, whiteboards and Movie Maker to create meaningful products. Students will use investigative skills to team up on Web Quests and will record their progress by creating and filming their own video portfolios.

Grades 4-8 Session 1 8:30-10:30 Grades K-3 Session 1 10:30-12:30

Grades 4-8 Session 2 8:30-10:30 Grades K-3 Session 2 10:30-12:30

Grades 4-8 Session 3 8:30-10:30 Grades K-3 Session 3 10:30-12:30

Course Title: S.T.E.M. for Middle School

Instructor

Description: Have you ever thought of an idea that you wanted to design? Students will enjoy participating in various creative activities, while thinking outside the box, and working under time constraints. Students will participate in 3-D design using Google Sketchup, create a new game or videogame, design an air-powered rocket, and even build a structure. Students will learn enhanced science, technology, engineering and math concepts in an enjoyable environment.

Grades 4-8 Session 3 10:30-12:30; Session 2 8:30-10:30; Session 1 8:30-10:30

Course Title: S.T.E.M. for Elementary

Instructor:

Description: This module presents a fun way for students to participate in project-based learning, which promotes math, science, and technological design. Students will design a usable object using recycled materials, create a container that will protect Humpty Dumpty from breaking, and participate in a variety of S.T.E.M. challenges including coding activities.

Grades K-3 Session 1 10:30-12:30; Session 2 10:30-12:30; Session 3 8:30-10:30

Course Title: Math Maniacs

Instructor:

Description: This module presents math activities to challenge thinking and improve skills. Using the iPad 3 apps, games, and practice worksheets, students will improve calculating, number facts abilities, and computational skills. The smartboard, laptops, whiteboards and paper and pencil will support learning.

Grades K-3 Session 1 10:30-12:30; Session 2 10:30-12:30; Session 3 8:30-10:30

Course Title: Summer Science Lab

Instructor:

Description: This module will engage students in hands-on science experiments. Taught by experienced environmental educator, students will explore the area ecology, and practice experiments that will challenge students and relate to the world around us, keeping attention focused on real-life applications of learning.

Grades K-3 Session 1 10:30-12:30; Session 2 10:30-12:30; Session 3 8:30-10:30

Course Title: Kids in the Kitchen

Instructor:

Description: A fun and creative Kitchen Experience for the young and young at heart! Students will learn to read recipes, measure ingredients, learn cooking tips, calculate cooking times, and make wholesome food choices through the preparation of fun, flavorful recipes.

Students will create and prepare delicious foods, and sample each other's creations daily. Parents will love that students will learn how to clean up, too. Children will learn enhanced reading and math skills in an enjoyable, relaxed environment.

Grades: K-4 Session I 8:30 - 10:30; Session II 8:30 - 10:30; Session III 10:30 - 12:30

Course Title: Phys Ed for Fun

Instructor:

Description: Students will enjoy participating in different games and physical activities each day. Students will participate in cooperative games, modified sport skill activities (Baseball, Basketball, Football, Soccer), as well as taking part in a traditional recreation program. This is a great way for students to practice healthy lifestyle skills while having fun. The class will be held indoors and outdoors, weather permitting, so students should be sure to wear sunscreen daily. Not Just Gym Class!

Grades 4-8 Session I 8:30-10:30; Session II 10:30-12:30; Session III 8:30 - 10:30

Students will enjoy participating in different games and physical activities each day. Students will participate in fun challenges during skill themed stations and activities, as well as cooperative games and a traditional recreation program of jump rope, 4 square, frisbee, tag, dog and flea, and other skill themes. This is a great way for students to practice healthy lifestyle skills while having fun. The class will be held outdoors, weather permitting, so students should be sure to wear sunscreen daily.

Grades K-3 Session I 10:30-12:30; Session II 8:30-10:30; Session III 10:30 - 12:30

Course Title: Suzuki Violin Exploration

Instructor:

Description: Students will be provided with ½ size violins for this exploration class. Each day, students will have the opportunity to sing, listen to and play music; learn how to hold the instrument and a bow, and learn how to create the proper sound on a violin string. Students will learn how to play a song on the violin, and will understand that this is a choice they may have for future study.

Grades: K-3 Session I 8:30-10:30; Session II 10:30-12:30; Session III 8:30 - 10:30

Course Title: Band Music Exploration

Instructor:

Description: Students will view a demonstration of various band instruments and will select one instrument for exploration during this summer program. Each day, students will have the opportunity to sing, listen to and play music; they will learn how to produce a sound with their instrument, and will practice the instrument individually and in a group each day. Students will understand that the band instrument is a choice they may have for future study.

Grades: 4-8 Session I 10:30-12:30; Session II 8:30-10:30; Session III 10:30 - 12:30

Course Title: Guitar Exploration

Instructor:

Description: Students will view a demonstration of various guitars and will select one instrument for exploration during this summer program. Each day, students will have the opportunity to sing, listen to and play music; they will learn how to produce a sound with their guitar, and will practice the instrument individually and in a group each day. Students will understand that the guitar is a choice they may have for future study.

Grades 3-5 Session I 10:30-12:30, Session II 8:30-10:30, Session III 8:30 - 10:30

Grades 6-8 Session I 8:30-10:30; Session II 10:30-12:30; Session III 10:30 - 12:30

Course Title: Iron Chef for Middle School

Instructor:

Description: Do you like to eat? If you do, you can learn how to cook some amazing and mouth-watering creations in this summer class. This exciting module will feature teams of middle school students working to create recipes prepared from a daily basket of challenge items and basic choices. Each day, after each team determines their recipe, they will prepare the food, then sample the results. Teams will vote on a daily winner of the competition, and all students will learn new skills and have a lot of fun in the process.

Grades: 5-8 Session I 10:30-12:30; Session II 10:30 - 12:30; Session III 8:30 - 10:30

Course Title: Hand Sewing and Embroidery Class

Instructor:

Description: Do you know how to sew? If you have already made something or you are brand new to sewing come and learn some new techniques and build your skills. This course will teach you the basics of hand sewing and embroidery necessary to complete projects. Students will learn how to thread a needle, follow a pattern, and learn stitches such as the running stitch and many more. Using these basic sewing skills, students will create and sew projects.

Grades 3-6 Session I 8:30 - 10:30; Session II 10:30 - 12:30; Session III 10:30 - 12:30
