

Members 4 and 5 were introduced to chess for the first time in the beginning of the school year (2013-2014). They will provide accurate data to show the success of the club.

Proficiency

Member 6 entered the Chess Club two meets before the testing occurred. Therefore, his/her data will provide additional evidence to learn how much can be taught in half a school year.

Chess Club Test Results

This test reveals how many games can be successfully completed and won at specific difficulty levels within half an hour. The skills of the players are tested as well as how quickly they can be demonstrated. This test will be conducted once more at the end of the year to determine growth.
